

SOMMAIRE

- installation de flutter
- installation android studio et vs code avec sdk etc ...
- Apprendre programmer sur flutter
- Apprendre la squelet flutter et
- Apprendre c qoui exactement firebase et comment lier mon application avec la base(j'ai des problemes la entrain de fixer)

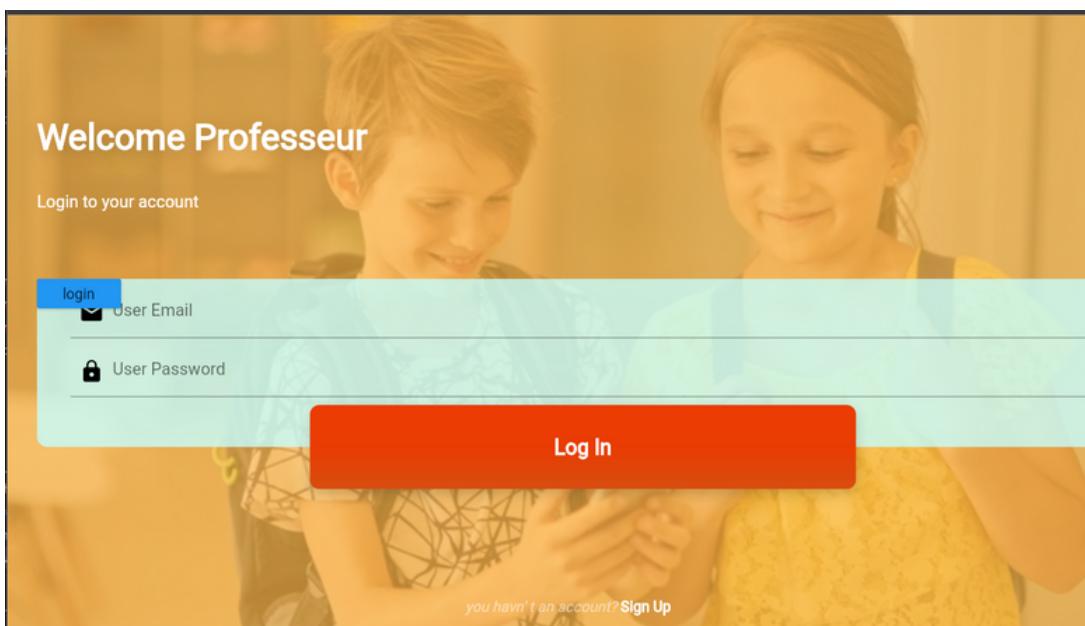

Application

-page Animation:

- Apprendre a faire l'animation avant que la page d'accueil s'ouvre

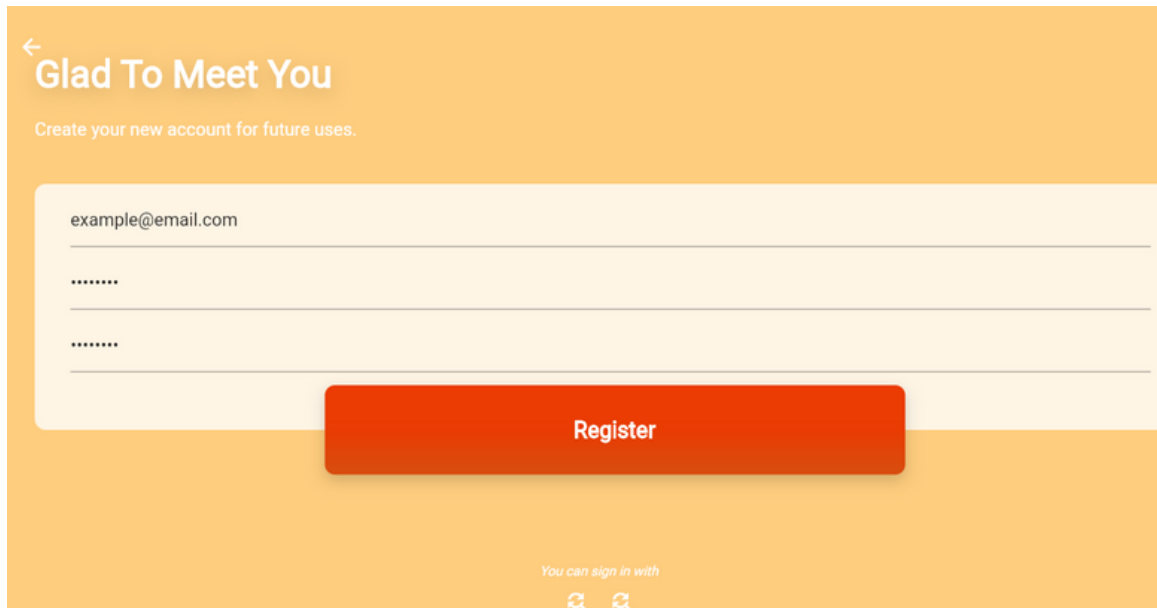

-page de login:

-page de register:

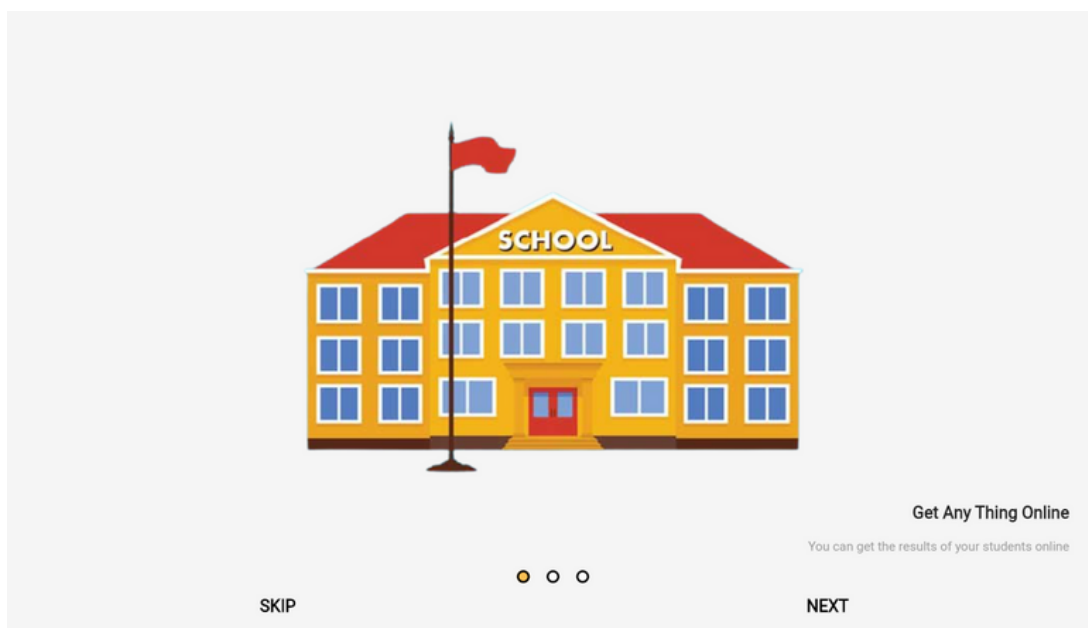

1. si le professeur presse sur Sign Up

A registration form with an orange header. The header contains a back arrow, the text "Glad To Meet You", and a subtext "Create your new account for future uses." Below the header is a form with three input fields: the first contains "example@email.com", the second and third are masked with "*****". A large orange "Register" button is centered below the form. At the bottom, it says "You can sign in with" followed by two social media icons.

-Si le professeur presse login et authentication valide:
